ABOUT XTREME CUBES

- Welded structural steel tube frame enhances the Cube's overall strength and increases options for customization.
- The standard Cube height is 10'. Cube lengths and widths are available in increments of 8', 10' and 12'.
- Modular wall panels can be easily customized with doors, windows, and other options.
- Premium components are utilized inside and out for durability and long life.
- Each Cube is engineered to your specific location conditions to withstand snow load, wind load and seismic events.
- Utility connections are preconfigured for a convenient and simple installation.
- Installation is quick and simple. When delivered, Cubes can be set in position, connected to site utilities and ready to use immediately.
